

## **Is It Possible to Speak and Listen to Multiple Students**

### **Summary**

Using SoftLINK, it is currently not possible to talk and listen to more than one student simultaneously. However, the Tutor can talk to multiple clients at one time.

### **Details**

During a view session, the Tutor can use the Audio function to conduct a bi-directional audio chat. The Tutor can also Show to the clients while sharing audio or can use the announce function to speak to individuals, groups or to all of the students.
