

Failure window.c line 2024 when starting RoboLab software

Details

When the SoftLINK Client and Robolab version 2.5 software are both installed on a Windows 2000 machine, the error message "Failure "window.c" line 2024" will occur when the RoboLab software is started.

Please perform the following fix which has been provided by Lego Technical Support.

Resolution

To resolve this problem you must update the file ROBOLAB2.EXE after installing RoboLab version 2.5.

Download and unzip the supplied ROBOLAB2.ZIP to replace ROBOLAB2.EXE in the RoboLab install folder.

Restart RoboLab.
