

All of the Computers On My Screen Look the Same, Why Can't I See Their Names?

Summary

When viewing the ScreenWatch Monitor (Instructor), you are unable to view the computer names.

Details

Student workstations can be viewed in one of three ways; Regular Icons, Large Icons, or Thumbnails.

- Regular Icons – Shows the status icon only. Performing a mouseover will show a thumbnail of the student's desktop.
- Large Icons – Shows the status icon, the username, and the computer's current status. Performing a mouseover will show a thumbnail of the student's desktop.
- Thumbnails – Shows the status icon, the username, the computer's current status, and a thumbnail of the student's desktop. The size and image quality of the thumbnail is determined by the settings specified under the General Settings.

To change the current view, right click in any open area of the Monitor desktop. Select View and then select the preferred viewing method.
